

INTRODUCING X-TINGUISH®

X-Tinguish® Aerosol fire suppression generators with thermal activation are total stand-alone units. Fixed activation heat detection is built into every unit available in various settings. Thermally activated units require no wiring, no control panel and a separate means of detection is not needed. Engineered for small enclosures, X-Tinguish® Thermally activated fire suppression generators are the perfect solution for off-the-grid installations and hard to protect enclosures. Currently available in sizes from 30g to 1000g. Practically Maintenance Free!

FIXED STAND-A-LONE AEROSOL FIRE SUPPRESSION GENERATORS

MODEL XT-250SA

Zero Global Warming potential and Zero Ozone Depletion potential

SPECIFICATIONS

	Model XT250
GROSS WEIGHT	4.85 Lb. / 2.2kg.
AEROSOL WEIGHT	1.06 Oz. / 250g
DIMENSIONS	7.48" x 3.54" / 19cm. X 9cm
ENCLOSURE	Stainless Steel 316L
CAPACITY	2.0m ³ (70.6cu.ft.)
TOXICITY	NONE
MOUNTING	Magnetic or screw down bracket

APPLICATIONS

- Electrical cabinets and Wind Turbine Nacelles
- CNC - machines and engine compartments
- Computer Control rooms (sub floor; above ceiling)
- Generator & compressor rooms and compartments
- Flammable and combustible liquids and gas storage
- Marine applications
- Paint rooms and battery storage
- Telecommunications facilities
- Military

CLASS A fires involve common combustibles such as wood, paper, cloth, rubber, trash and plastics.

CLASS B fires involve flammable liquids, solvents, oil, gasoline, paints, lacquers and other oil-based products.

CLASS C fires involve energized electrical equipment such as wiring, controls, motors, machinery or appliances.

CLASS K fires involve combustible cooking media such as oils and grease commonly found in commercial kitchens.

THERMALLY ACTIVATED

Available in various fixed activation temperatures.

Thermostat detector is UL listed.
